

## Create a Slide Show

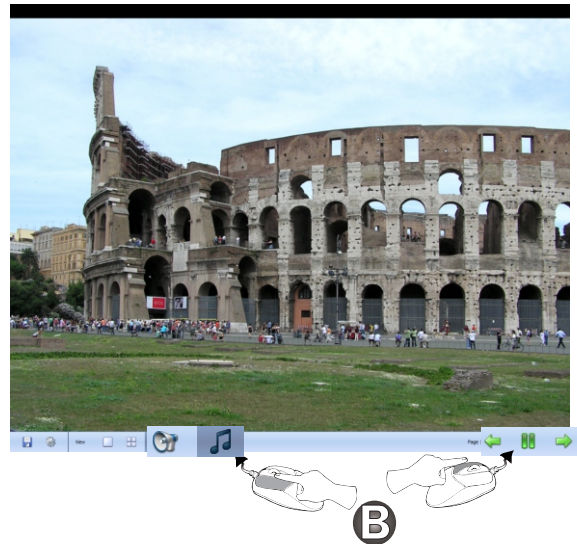

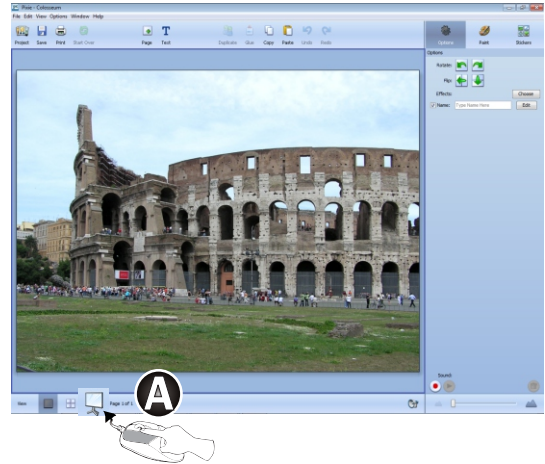

You can present a slide show of the pictures that are currently opened or a project in Pixie.

- A. Click the Full Screen button on the status bar.

The canvas will fill the screen. You will see a toolbar at the bottom of the screen when you move the cursor.

- B. Click the following buttons to do each operation :

-  Next button - to go to the Next canvas.
-  Previous button - to go to the Previous canvas.
-  Pause button - to pause any automatic timers.
-  Sound button - to mute the background music and canvas sounds.
-  Talking Interface button - turns the talking on & off

You can change the following for your presentation or slide show :

- \* **Timing (per second)** - the interval in seconds before the next page will be displayed.
- \* **Transition** - the behavior of each page when it is displayed.
- \* **Background Sound** - adds a background sound of your choice.
